## School Planning Priorities for 2015 – 2016

**Priority #1** - To help students struggling with reading and other literacy skills to strengthen these skills and give them tools enabling them to work effectively at or near grade level.

### Initiatives:

- ❖ A literacy support teacher will collaborate and team-teach with ELA teachers allowing them to work with individual students or small groups of students targeting necessary skills and assessing them effectively.
- ❖ Students requiring further support will also be included in literacy intervention groups supervised by the Resource department.

**Priority #2** - To review and develop school-wide practices addressing the unique characteristics of our Middle School environment.

### Initiatives:

- ❖ Teachers will develop a school-wide, Grade 5-8 continuum of learning in one academic area ensuring comprehensive and progressive learning of key curricular outcomes.
- ❖ Students and families will experience the benefit of improved home/school learning partnerships through the use of technology such as Remind App, Google Apps for Education, and other electronic means.
- ❖ Students will learn actively about democratic representation and student leadership by serving in and being served by our new Middle School student council.

**Priority #3** - To involve students increasingly in inquiry learning.

### Initiatives:

- ❖ Teachers will receive professional development about inquiry learning and explore means of using this model in their instructional practice.
- ❖ Students will increasingly experience an inquiry approach to learning in and across subject areas.
